("InnoCan") (together: the "Group") that was incorporated in Israel in October 2017 and commenced its operations in November 2017. InnoCan is a pharmaceutical company which specializes in integrating cannabinoids with existing proven drugs to enhance their capabilities by harnessing the cannabinoids healing properties and interaction with the human body's endocannabinoid system. InnoCan is at a pre-clinical stage (see also Note 1.5). InnoCan is expected to conduct activities mainly in the US, Canadian and European markets. Each unit consists of one common share of the Company and one-half of one common share purchase warrant (each whole common share purchase warrant, a "Unit Warrant"). Each Unit Warrant entitles the holder thereof to acquire one common share at an exercise price of CAD 0.30 for a period of 24 months following September 25, 2019. If in the period following the closing of the IPO until the end of the 24 months follows, the closing price of the common shares of the Company, is equal to or greater than CAD 0.35 for any 20 consecutive trading days, the Company may, upon providing written notice to the holders of warrants, accelerate the expiry date of the warrants to the date which is 30 days following the date of such written notice. **NOTE 1 - GENERAL (CONT.):**

4. On May 11, 2020, the Company filed a preliminary short form prospectus in Canada, in connection with a marketed public offering (the "Offering"). On June 10, 2020, the Company closed the Offering, pursuant to which the Company issued 28,423,943 units of the Company (the "Units") at a price of CAD 0.18 per Unit for gross proceeds of CAD 5,116,310 (approximately USD 3,822 thousand). Each Unit is comprised of one common share and one warrant. Each warrant is exercisable into one common share at an exercise price of CAD 0.25 until June 10, 2023. If in the period commencing June 10, 2021, the closing daily volume weighted average trading price ("VWAP") of the common shares of the Company, is equal to or greater than CAD 0.50 for any 20 consecutive trading days, the Company may, upon providing written notice to the holders of warrants, accelerate the expiry date of the warrants to the date which is 30 days following the date of such written notice (see also Note 7).
  
5. Since inception, the Group has not generated revenue and expects to continue to finance itself through raising adequate funds in the foreseeable future. The Group incurred a net loss of USD 3,661 thousand for the nine-month period ended September 30, 2020 and generated USD 8,271 thousand of accumulated deficit since inception. These events and conditions, along with other matters as described in Note 3(A), indicate that a material uncertainty exists that may cast significant doubt on the Group's ability to continue as a going concern. This could result in adjustments to the amounts and classifications of assets and liabilities in the Company's consolidated financial statements and such adjustments could be material.

**NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES:**

**Basis of preparation**

These interim consolidated financial statements have been prepared in accordance with IAS 34 Interim Financial Reporting. They do not include all disclosures that would otherwise be required in a complete set of financial statements and should be read in conjunction with the 2019 annual report.

**Significant accounting policies**

The Group has applied the same accounting policies and methods of computation in its interim consolidated financial statements as in its 2019 annual financial statements. Other new and amended standards and Interpretations issued by the IASB that will apply for the first time in the next annual financial statements are not expected to impact the Group as they are either not relevant to the Group's activities or require accounting which is consistent with the Group's current accounting policies.

**NOTES TO UNAUDITED CONDENSED INTERIM CONSOLIDATED**  
**FINANCIAL STATEMENTS**  
**(US Dollars)**

**NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES (CONT.):**

*Impact of accounting standards to be applied in future periods*

There are a number of standards and interpretations which have been issued by the International Accounting Standards Board that are effective for periods beginning subsequent to December 31, 2020 (the date on which the Group's next annual financial statements will be prepared up to) that the Group has decided not to adopt early. The Group does not believe these standards and interpretations will have a material impact on the financial statements once adopted.

**NOTE 3 - SIGNIFICANT EVENTS AND TRANSACTIONS:**

**A. Covid-19 effect**

The world is currently experiencing an event with macroeconomic consequences, originating from the spread of the Corona virus (COVID-19) in many countries around the world (hereinafter - the "Coronavirus" or the "Event"). Following the Event, many countries are taking significant measures to try to prevent the spread of the Coronavirus, such as restrictions on civilian movement, gatherings, transit restrictions on passengers and goods, closing borders between countries, etc. (hereinafter – the "Measures"). As a result, the Event and the actions taken by the various countries have significant implications on many economies worldwide. InnoCan had commenced manufacturing and production of its topical product lines through contracts including supply of packaging materials via Chinese companies. As packaging materials were delayed, the production of some of these products was subsequently delayed beyond the date of September 30, 2020. In addition, the Event and measures taken by governments, substantially influence the Group's marketing and business development abilities, especially of a new brand. These uncertainties may affect the future cash flow and sales of the Group, the amounts of which cannot be determined at this time.

The World Health Organization declared coronavirus and COVID-19 a global health emergency on January 30, 2020. Since then, the Group has experienced significant disruption to its operations in the following respects:

1. Disruptions in the manufacturing and supply of the Group's products from major manufacturers;
2. Uncertainty concerning the future sales growth rate;
3. Significant uncertainty concerning when government lockdowns will be lifted, social distancing requirements will be eased and the long-term effects of the pandemic on the demand for the Group's primary products.

**NOTE 3 - SIGNIFICANT EVENTS AND TRANSACTIONS (CONT.):**

**B. The "Ramot Research Agreement"**

On April 17, 2020, InnoCan entered into a sponsored research agreement (the "Ramot Research Agreement") with Ramot at Tel Aviv University Ltd ("Ramot"). The Ramot Research Agreement allows InnoCan to receive the research results of Ramot in respect of the development of Cannabidiol loaded exosomes (the "CLX Research") and grants InnoCan an exclusive option to enter into an agreement to license, on a worldwide basis, the results of the CLX Research (the "Option"). Under the Ramot Research Agreement, InnoCan will provide financing for the CLX Research in the amount of USD 446 thousand over a period of 18 months in exchange for the Option. InnoCan may exercise the Option at any time during the Research until the date that is thirty days from InnoCan's receipt of the final report in respect of the CLX Research (which is due during the fourth quarter of 2021) by notifying Ramot in writing ("Option Exercise Notice"). Upon the Option Exercise Notice, InnoCan will negotiate with Ramot the terms and conditions of a license agreement. Between April 2020 and September 2020, InnoCan paid an amount of USD 182 thousand to Ramot. The total expense incurred during the period between April 2020 and September 2020 amounted to approximately USD 285 thousand.
